ANNOUNCEMENT EXTRAORDINARY

Norfolk Weekly News Reduced to \$1
a Year for Cash in Advance.

PREMIUM TO EVERY SUBSCRIBER

Opportunity for Young Men and Women,
Boys and Girls to Make Money.

During the 18 years that THE NORFOLK WEEKLY NEWS has been published no subscriber has ever received it for less than \$1.50 per year. This price has been maintained in the face of cheaper competition, because it has always been conceded that THE NEWS is the best weekly paper published in this section of the state, being printed all at home and giving later telegraphic news and recording more local events than any other. It has always been well worth the price asked for it and will continue to steadily improve in all its varied departments in the future. But in response to the large class of people who desire to pay in advance we have decided to make the following

SPECIAL OFFER:

To every subscriber who will pay \$1.00 in advance THE NEWS will be sent for one year.

To every old subscriber who will pay up all arrearages to date and \$1.00 in advance, THE NEWS will be sent for one year.

Every subscriber who pays one year in advance will be presented with a copy of Kendall's Perfected Receipt Book, admitted to be the best cook book on the market, containing besides suggestions as to the care of the sick, recipes for the ailments of stock, etc., which are invaluable on any farm and in any household. Those who cannot call at THE NEWS office for the book will include 5 cents extra for postage.

Any subscriber, or member of the family of a subscriber, who secures for us one or more new cash in advance subscriptions, will be paid 25 cents for each new name and \$1.00 which they may send to this office.

Those who have paid in advance at the regular rate will be credited the additional time at the new rate. Those who do not pay in advance will continue to be charged the old rate of \$1.50 per year.

This special offer will continue until April 1, unless sooner withdrawn, which we reserve the right to do. Address all communications to

TO GO A THOUSAND FEET

Council Decides to Continue
After Water.

AN ARTESIAN WELL IS WANTED.

Rather a Lively Session, But All the Councilmen But One Vote to Sink More Money In the Hole—Councilman Bullock Stands Out and Records the Only Negative Vote.

From Wednesday's Daily.
At the meeting of the city council last evening it was decided to continue the new city well to a depth of 1,000 unless sufficient water be found sooner.

Every councilman was in his seat when the mayor rapped for order and stated that the special meeting had been called for the purpose of determining whether work should be stopped or continued on the city well.

The committee on public works submitted the following report:

To the Honorable Mayor and City Council—Gentlemen: Your committee having in charge the sinking of the new well at the waterworks, beg to submit the following: Commencing at 430 feet as reported in previous report, we continued to drill through the same blue shale which varies slightly in hardness, until at the depth of 610 feet, then striking a bed of sand rock of a dark color. Penetrating this about two feet, we secured sufficient water to raise about 500 feet in the well. Owing to caving in of the blue shale below the 8-inch casing (about 500 feet down) and not being able to sink the 8-inch casing further, we secured 6-inch casing and now have 600 feet of this size down and have drilled 22 feet beyond. Passing through the strata of sand rock, which we think is between seven and eight feet in thickness, we again find the blue shale, and no visible increase in the supply of water at this depth, viz: 622 feet. We therefore ordered work to cease, pending your action and further advice, and we find that the cost to the city so far is approximately as follows:

430 feet 8-inch well, at \$2.75 per foot.....	\$1,182 50
22 feet 8-inch well, at \$3.00 per foot.....	210 00
100 feet 8-inch well, at \$3.25 per foot.....	325 00
70 feet 8-inch well, at \$3.50 per foot.....	77 00
8-inch casing paid by city.....	334 91
702 feet 6-inch casing paid by city.....	381 49
Extra labor for steam.....	60 00
Estimated extra coal for steam.....	120 00
	\$2,500 90

Respectfully submitted,
W. H. DEXTER,
ANTON BACHOLZ,
E. A. BULLOCK,
H. H. PATTERSON.

It was moved by Councilman Brumund that the committee be instructed to sink the well to the depth of 1000 feet, unless sufficient water be found at a less depth.

The mayor called for expressions upon the question from taxpayers present.

H. W. Winter advocated continuing the well, saying it would be foolish to drop \$2,600, as the well would be valueless if the casing were pulled up.

W. H. Widaman recited the experience of other towns that became discouraged and were going to give it up, but continued and secured artesian wells. He believes there is plenty of water to be had for going after it.

Councilman Bullock said that there is no necessity of going deeper as plenty of pure water can be secured at a much less depth. Physicians say no typhoid fever ever came from the city water, and that it is absolutely pure. The city had no money to continue and he was against it. He said that no member of the council would do business for himself as this city business is being done, and he thought it was all wrong.

Councilman Dexter said he had a letter from Niobrara, where there are two artesian wells about 600 feet deep, and the water is good.

Councilman Degner said that before the well was started Commissioner Patterson claimed that the people objected to the water now being used. The councilman favored going until better water is reached.

Geo. N. Beels said he did not think the water now used is the best, but on the contrary considered it very poor. He would not stop short of 1,500 feet.

Councilman Dexter said the vein of water struck at 610 feet is far better than the 100-foot vein.

There being no further remarks roll call was called upon the motion of Councilman Brumund to continue the well to the depth of 1,000 feet, which was carried by a vote of seven to one. Those voting aye were Councilmen Brumund, Bacholz, Degner, Dexter, Heckman, Viele, Uhle, No, Bullock.

POLICE COURT DOINGS.

Two Youths Tried For Carrying Concealed Weapons—Bridgeford Charged With Assault and Battery.

The quiet which has prevailed for the past week in the city court has been broken.

On complaint of Richard Bathke, two colored young men, Calvin Butler and Arthur Buckner, were arrested by Officer Spaulding on the charge of carrying concealed weapons with intent to do great bodily harm.

At 10 o'clock this morning the prisoners were arraigned before Judge Hayes and in answer to the charge plead "not guilty." The testimony of several witnesses proved otherwise, however. They threatened Bathke last evening, while carrying guns. After hearing the evidence Judge Hayes pronounced them guilty of at least carrying concealed weapons and gave them two hours in which to leave town. Buckner's home is said to be in Fort Custer, Mont. Young Butler has lived here and has heretofore had a reputation of being quiet and well behaved. The judge conditioned his going away by providing that if he obtained steady employment in the city at once he might stay.

On complaint of Etta Wilson a warrant was sworn out this morning against Charles Bridgeford, charging him with assault and battery. It is alleged that Bridgeford this morning struck and assaulted his wife and Miss Wilson, his wife's sister. No arrest has been made as Bridgeford has not yet been found.
